HOME AND CHILD

Does your horse "feel his
oats"? What a difference be-
tween the grain-fed and the
grass-fed horse! The first
strong and full of ginger, the
second flabby, weak and tired
out before he begins. The
feeding makes the difference.

Children are not alike either.
One is rosy, bright-eyed, full
of life and laughter, another is
pale, weak and dull. The feed-
ing again is responsible.

Sickly children need special
feeding. They don't "feel their
oats". Scott's Emulsion adds
just the right richness to their
diet. It is like grain to the
horse. The child gets new
appetite and strong digestion.

Scott's Emulsion is more
than food. It is a strong
medicine. It rouses up dull
children, puts new flesh on thin
ones and red blood into pale
ones. It makes children grow.

Scott's Emulsion makes ordi-
nary food do its
duty.

This picture represents
the Trade Mark of Scott's
Emulsion and is on the
wrapper of every bottle.
